Signal Status & Meters

Signal Status To operate the MindWave with your device you will need to achieve *Bluetooth* pairing with the device first and also get a good EEG signal with the MindWave. These icons show the status of your connection in the upper right hand corner of most NeuroSky apps.

Quick Fixes & Older Icons If your device is properly paired and there is a fresh battery in the headset, try these tips to help ensure good EEG connection. Older applications may use the signal status icons below.
